

## CC License Bundle Definitions

There are four tiers of UCC licensing: Basic, Entry, Standard, and Premium.

Use Enterprise UCC V4.0 licenses with all MiCollab Release 7.0 systems.

UCC license bundles map to default [UCC roles and templates](#). To assign a UCC license bundle to a user, you assign the associated default role to the user. The role references a default user template that applies the licensing to the user.

The following table lists the licenses included in each tier.

Licenses included	UCC Licenses			
	Basic	Entry	Standard	Premium
MiVoice Business user license only	Entitles user to MiCollab Basic Client	No	No	No
MiVoice Business multi-device user licenses (Not applicable to MiVoice 5000 or MiVoice MX-ONE)	No	Yes (Multi-device user group up to 8 devices)	Yes (Multi-device user group up to 8 devices)	Yes (Multi-device user group up to 8 devices)

--	----	--------------------	-----	---

**Notes:**

**Note 1:** With an additional MiVoice Business user licence, you can configure a UCC Entry user with a Multi-device User Group.

**Note 2:** Basic and Entry licenses also include the MiCollab Client desktop and web client with just the Instant Messaging Presence feature. Entry licenses provide IM and Voice presence. Standard and Premium licenses provide MiCollab Client desktop and web client with full MiCollab Client feature functionality.

**Note 3:** A Standard license provides video functionality. A Premium license includes the standard video functionality and the advanced Vidyo feature. Vidyo provides higher resolution video as well as some advanced features. Vidyo and MiCollab integration also requires the Vidyo Portal API License PN5130264.

**Note 4:** Optional license PN54006550 adds MiCollab Client Mobile functionality to an Entry bundle.

**Note 5:** Optional license PN54006551 adds MiCollab Client Softphone functionality to an Entry bundle.
