Fixed Dome Network Camera

1.3MP · SNV · Day & Night · 20M IR · IP66 · IK10 · 3DNR

VIVOTEK FD8154V is a compact fixed dome network camera with 1.3-Megapixel resolution and the ability to output 30 frames per second in H.264 compression. It includes multiple streams with different settings and applications, such as recording or live viewing, delivering excellent image quality during both daytime and nighttime.

Equipped with SNV (Supreme Night Visibility) technology, the FD8154V offers increased sensitivity to low light and provides clear images in dark conditions. In addition, built-in IR LEDs enables the camera to provide enough illumination for clear viewing up to 20 meters, even in completely dark environments.

Users can also benefit from simple installation with the compact housing and standard PoE power input design, as well as an SD card slot for local storage use.

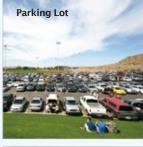

Additionally, the FD8154V is an outdoor-ready camera with an IP66-rated weatherproof and IK10-rated vandal-proof housing for increased camera protection. With all of these features and more, the FD8154V is an ideal solution for megapixel surveillance needs.
